

Here's How to send your Comment to the EPA electronically:

Step 1

Open this link:

<https://www.regulations.gov/docket?D=EPA-HQ-OPPT-2016-0736>

Step 2

In top center of page there is a heading in red: **Primary Documents**
Of to the right is a button you can click [COMMENT NOW]

Step 3

On this new page you can paste into the COMMENTS box or use a file upload device to append your letter. I used the upload.

If I were to do this for a school district I would check the box saying:
 I am submitting on behalf of a third party.

Lower and off to the right I then depressed the CONTINUE button

Step 4

On the new page I received a comment tracking number and an advice that an email receipt had been sent to me.

Shortly thereafter I received an email receipt that included my tracking number.

Apparently when enough time passes the tracking number can be used to see how the submission was posted.
